

### □ **G1629** Emergency Shower, Recess Mounted, Stainless Steel Shower Head

**Application:** Emergency shower for recess mounting in a finished ceiling or soffit. Shower is activated by rigid pull rod.

**Shower Head:** 10" diameter with 20 GPM flow control and flange for flush mounting in ceiling. Shower head is stainless steel with stainless steel face plate.

**Valve:** 1" IPS brass stay-open ball valve. Valve is US-made with chrome plated brass ball and PTFE seals. Furnished with stainless steel actuating arm, 47-1/2" stainless steel pull rod and stainless steel ceiling guide plate.

**Pipe and Fittings:** 1" IPS galvanized steel.

**Supply:** 1" NPT female inlet.

**Sign:** ANSI-compliant identification sign.

**Note:** *ANSI Z358.1-2014 provides that shower heads be installed no more than 96" above the finished floor. This unit should therefore not be installed in ceilings over 8 feet. For higher ceiling heights, we recommend the G1658 shower.*

### Available Options

- **G6040** Thermostatic mixing valve precisely blends hot and cold water to deliver tepid water as required by ANSI Z358.1-2014. Refer to "Thermostatic Mixing Valves" section for complete technical and product selection information.
- **AP280-230** Electric strobe light and alarm horn unit for recess mounting in finished wall. Light illuminates and horn sounds when shower is activated. Furnished complete with flow switch and mounting hardware.
